

I first would like to say that I don't always agree with Howard Stern or the topics he discusses on his morning show. However, I have the right to listen to him or turn the station. As does anyone who finds Mr. Stern or anyone else for that matter offensive! I am appalled at the way that Mr. Stern and his show are being treated. Is this not America and do we not have the freedom of speech? I have supported President Bush in the past however, I believe that his people, particularly Mr. Powell are overstepping their boundries. Many men and women have died fighting for the rights that they are trying to take from us. This is WRONG! We have always prided ourselves on the fact that we can say what we want as an American and Mr. Stern is no exception. It is rediculus that he is being fined for what he has been doing for over 30 years already! There have been many times that I have questioned what or why the Republican party has done things but this is something that can not be allowed to happen. If the FCC bannes Mr. Stern as they are trying to do, WHAT IS NEXT? How far is this going to go? Will we have to censor what we say in our own homes next? I believe that this is a begining to Republican wanting to take complete control over our lives. Please I ask you to look at the documents our for fathers have written and think about what you are really taking away. Consider what it would be like for you to be censored for every word you say! I have one last thing to say! President Bush is sending hundreds of thousands of men and women to the middle east to supposedly "fight for the rights of the Iraqi people, We want them to have the same rights as us" Why do we want them to get use to the freedoms we have if in a few years they will be taken away from them. Please Think about what you are doing and reconsider the consiquences!
